Classic games suite

Team group number: 1
Project title: Classic games suite

Members:
1. Sai Siddhardha Chebrolu - 002282544
2. Mukul Sai Pendem - 002814729
3. Tirth Naik - 002087675
4. Ethan Liu - 001587036
5. Shiva Bhargav Bhuvanamn - 002826368

Problem Statement:
Our project aims to develop a demo of three classic evergreen games—Tic-Tac-Toe, Minesweeper, and Hangman—using design patterns to ensure scalability, maintainability, and code reusability. Tic-Tac-Toe will provide a simple yet strategic two-player experience. Minesweeper will challenge players with logic-based grid exploration. Hangman will test vocabulary and deduction skills in a word-guessing game. This approach will reinforce best software engineering practices while delivering an engaging and nostalgic experience.
